Chemical safety glove

Feature	High quality NBR (nitrile butadiene rubber) coating	Silicone-free with good resistance to many chemicals	Slim-Fit gauntlet	Bamboo fibre liner	Food Standard Approved
    	Chemical protection glove with excellent tactile feel.	Silicone-free according to imprint test.	Extremely lightweight and highly flexible.	The bamboo fibre used in this model is particularly kind to skin and wicks away sweat.	Designed so that no components can be transferred to food.
Benefit	High levels of protection.	Good resistance to many chemicals with huge range of possible applications.	Precision feel and high task compliance. Reusable alternative to disposables.	Extends wearability time, offering unparalleled comfort and dexterity.	Does not pose a hazard to human health.
